West Clermont moving toward top performance as state releases report cards

Today, West Clermont School District is proud to debut its 2022-23 Quality Profile. This annual publication is designed to give every West Clermont resident a more comprehensive look at the high-quality education and services the district offered during the 2022-23 school year. The Quality Profile is a robust complement to the Ohio School Report Card, and includes additional accountability measures that define the high-quality education students receive in West Clermont as it lives out its unique Portrait of a Graduate.

Both the Quality Profile and the Ohio School Report Card, which was released by the state yesterday, show that West Clermont has made tremendous progress in ensuring all students receive an excellent education that can lead to success in life no matter their pathway after graduation. West Clermont has leveled up and earned an overall 4-star out of 5-star rating, and the State Report Card finds that it:

- Meets the state standards in academic achievement
- Meets the state standards in graduation rates
- Meets the state standards in early literacy (K-3)
- Exceeds state standards in closing educational gaps

Most importantly, West Clermont student's performance results provide "significant evidence" that West Clermont exceeded student growth expectations.

"When paired with West Clermont's State Report Card, our Quality Profile offers a comprehensive look at the accomplishments of our students and staff as well as a more complete picture of the well-rounded experience we provide in our schools each and every day. It's our chance to give context to our work as a district ON THE RISE," said Natasha Adams, Superintendent and CEO.

"We know that a student's potential is not determined simply by test scores, which is why this profile includes measures beyond the test scores that make up the Ohio School Report Card and seeks to

show the complete picture of the total value that our school provides to students and the community," she added.

Every household across our district will receive a copy of our 2022-23 Quality Profile in the mail this month. In addition, an interactive electronic version is available on our website at westcler.org/qualityprofile.

"Through our Quality Profile, we invite you into the West Clermont story as we continue on our path that's onward and upward," added Jeffrey Riel, Coordinator of Strategic Initiatives and Communication for the district.

About West Clermont: West Clermont School District commits to excellence with every learner, every day, and in every way. Its vision is that together as one community, we learn, lead, and succeed. The district believes that together we are ON THE RISE and values strengthening relationships, cultivating innovation, being relentlessly student-centered, and fostering empowerment.
