West Clermont High School Makes U.S. News List of Best High Schools

CINCINNATI (April 25, 2024) — West Clermont High School was ranked 4,878 nationally, 179 in the state and 33 in the Cincinnati metro area in U.S. News & World Report’s list of best high schools released earlier this week.

The national ranking places West Clermont High School in the top 40% of high schools in the country out of nearly 18,000. This also makes the school eligible to display the U.S. News 2024 Best High School award badge.

Schools are ranked based on student performance on state-required tests, graduation rates and how well they prepare students for college.

“We are so proud of this achievement,” said Superintendent Natasha Adams. “This highlights all of the incremental improvements we’ve made over the last several years. In collaboration with our teachers, families and community partners, we are providing more future-focused programming for our high school students and are recommitting to knowing every student’s name, story, strengths and needs so they are successful no matter their pathway.”

About West Clermont: West Clermont School District commits to excellence with every learner, every day and in every way. Its vision is that together as one community, we learn, lead and succeed. The district believes that together we are ON THE RISE and values strengthening relationships, cultivating innovation, being relentlessly student-centered and fostering empowerment.
